Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
 - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
 - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
 - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Claims 26 (Species IV), 30-32 (Species I, II), 34 (Species I, II), 35 (Species I, II), 38 (Species I, II, IV-VI), 39 (Species V, VI), 41 (Species I, II), 42 (Species I, II) are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected Species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 7/26/2004.

Drawings

2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: no. 57, large end (see spec. pg. 7, line 19). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Art Unit: 3643

3. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the "tool of Claim 19 attached to a fisherperson's vest" must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claim 40 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In regard to claim 40, the phrase "...tool of Claim 19 attached to a fisherperson's vest" renders the claim vague and indefinite since the vest does not form a part of the desired invention and instead should be functionally recited as "...tool of Claim 19 capable of being attached to a fisherperson's vest".

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 19, 21, 36, 37, 45 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Cain 6,012,165.

Cain discloses a thimble (10) comprising an approximately circular open end (at 16 below 14) and an approximately circular closed end (31) and a body (12, 14), wherein the open end has a larger radius than the closed end (end 31 tapers toward the top and becomes smaller toward the top end in Figs. 2-4 while the closed end defined

Art Unit: 3643

by 14, 16 does not taper but stays at a size larger than 31); a curved blade (26) attached at a position near the open end (the term "near" is a relative term), the blade having a radius of curvature matching a radius of curvature of the thimble at a position on the first portion (see Fig. 4) and extending beyond the closed end (see Figs. 3, 4); and means for attaching the tool to clothing (32, 36 are capable of attaching the device to clothing; also either cutout 22, slots 30, or apertures 40 also capable of providing an attachment location for a lanyard, string, rope, etc. to thereby attach the device to an article of clothing such as a fisherperson's vest or lanyard device) comprising a loop (when 36 are joined together and 32 forms a loop).

Allowable Subject Matter

8. Claims 22-25, 27-29, 33, 43, 44, 46, and 47 are allowed.
